VINYL WINDOWS CATALOGUE

ABOUT US

REGAL - The Leading Provider of Windows, Doors & Railings Products.

We are a family run business that prides itself on providing high quality products and services, while ensuring completions of projects in a timely manner. Since our inception 40+ years ago, Regal has continued to service Ontario and its surrounding areas, specializing in replacing multi level building envelopes including apartment buildings, condominiums and a variety of government institutions and new construction projects.

At Regal, we fabricate the latest architectural aluminum building envelope products. We specialize in building a wide range of custom

manufactured aluminum and vinyl windows, sliding patio doors, steel insulated and commercial doors, aluminum door entrance systems and aluminum railings.

If you're looking for something new, you're in the right place. We strive to be innovative, through our three state of the art facilities, offering our customers what they want. Our team of experienced sales managers are happy to offer their expertise and exceptional customer service to provide a free estimate at a competitive price.

Attractive interiors and exteriors that stay looking great for years.

VINYL WINDOWS

Vinyl windows are designed and built with style in mind and fit virtually any home or low rise building application. We offer a large selection of options to enhance both the interior and exterior of our windows.

TABLE OF CONTENTS

- 4** Operating Style
- 6** 3250 A Series
- 7** 3250 B Series

OPERATING STYLE

FIXED WINDOWS

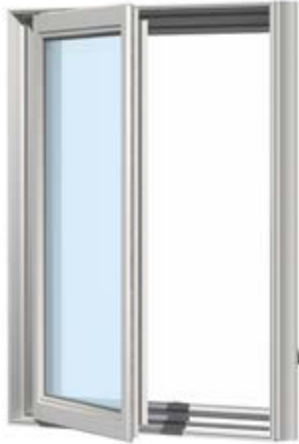

Fixed windows provide optimal thermal performance and security. The fixed windows are interior glazed framing with numerous options in frame depths. Prime sealed or rain screen design with both double and triple glazed options will accommodate most design applications. Most of our operable windows can be fabricated to couple with our fixed windows for maximum versatility.

AWNING WINDOWS

Awning windows are hinged from the top and swing outward and can easily be coupled with our fixed windows to suit most design needs. Our awning windows are available with a rain screen design and can accommodate both double and triple glazed options. Awning windows offer a superior barrier to air and water infiltration over the conventional sliders windows.

OPERATING STYLE

CASEMENT WINDOWS

Casement windows are hinged from the side and swing outward and can easily be coupled with our fixed windows to suit most design needs. Our casement windows are available with a rain screen design and can accommodate both double and triple glazed options. Casement windows offer a superior barrier to air and water infiltration over the conventional sliders windows.

SLIDER WINDOWS

Sliding Windows feature a heavy duty interlocking or shared vertical framing members to allow for a continuous seal. Our slider windows have a rain screen design and can accommodate both single and double glazed options. Our sliders are available in a variety of frame depths and are ideal for schools, institutional and apartment buildings applications.

HUNG WINDOWS

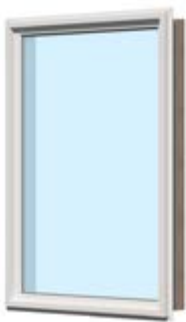

Need to add info
